From Chris Weiss at National Institute of Health. I wasn't able to open the file, but hopefully it will be of some help.

Karen,

We have obtained the available toxicology data on MCHM (let me know if you need that info) but don't have any exposure concentration data from the intakes, taps, or indoor air data. I'll be briefing the HHS Secretary tomorrow and, if you have any information you can share, please give me a call or email. 24/7.

Thanks and Happy New Year!

Chris
